

PUNJAB SEED CORPORATION**INTERNATIONAL COMPETITIVE BIDDING****PROCUREMENT OF HYBRID SEEDS****Hybrid Maize | Hybrid Paddy | Hybrid Sorghum-Sudan Grass | Hybrid Vegetables**

For the 2027 Marketing and Sowing Seasons

Procurement method	Open Competitive International Bidding
Bidding procedure	Single Stage - Two Envelope
Issue date	20.08.2026
Pre-bid meeting	17.09.2026 (11:00AM)
Bid submission deadline	30.09.2026 (11:00 AM)
Technical bid opening	28.09.2026 (11:30AM)
Purchaser	Punjab Seed Corporation (PSC)
Contact	042-99212563

Document Structure

Part	Contents
Part I - Bidding Procedures	Invitation for Bids; Instructions to Bidders; Bid Data Sheet; Evaluation and Qualification Criteria; Bidding Forms
Part II - Supply Requirements	Schedule of Requirements; General and Lot-specific Technical Specifications; Inspections and Tests
Part III - Conditions of Contract	General Conditions; Special Conditions; Contract Forms and Securities
Part IV - Regulatory and Internal Schedules	Local/International Supplier Compliance; Future Vegetable Hybrid Lots; PSC Issue-Control Checklist

PART I - BIDDING PROCEDURES

Section I - Invitation for Bids

Punjab Seed Corporation invites electronic bids from eligible local and international breeders, manufacturers, authorized suppliers and registered seed importers for supply of hybrid seed for the 2027 marketing by PSC and sowing seasons. The procurement shall be conducted through Open Competitive International Bidding using the Single Stage - Two Envelope procedure under the Punjab Procurement Rules 2014, as amended.

Lot	Description	Quantity	Estimated Cost	Bid Security (@2%)	Required arrival
1	Hybrid Maize Seed	50 MT	Rs. 25 M	Rs. 500,000/-	Within 01 month of issuance of award letter
2	Hybrid Paddy Seed - Coarse Grain	20 MT	Rs. 20M	Rs. 400,000/-	Within 01 month of issuance of award letter
3	Hybrid Sorghum-Sudan Grass (SSG) Seed	100 MT	Rs. 40M	Rs. 800,000/-	Within 01 month of issuance of award letter
4	Hybrid Vegetable Seed				
i	Okra (F1) Hybrid seed	3 MT	Rs. 15M	Rs. 300,000/-	Within 01 month of issuance of award letter
ii	Bitter Gourd (F1)Hybrid Seed	0.2 MT	Rs. 8M	Rs. 160,000/-	Within 01 month of issuance of award letter
iii	Bottle Gourd(F1) Hybrid Seed	0.5 MT	Rs. 6M	Rs. 120,000/-	Within 01 month of issuance of award letter
iv	Brinjal (F1)Hybrid seed	0.04 MT	Rs. 2.20M	Rs. 44,000/-	Within 01 month of issuance of award letter

- Bidders may bid for one or more lots. A bid must cover 100% of the quantity of each offered lot; partial-lot bids are non-responsive unless the Bid Data Sheet expressly permits otherwise.
- Each offered hybrid must be lawfully approved/registered/enlisted for commercial cultivation and sale in Pakistan, and the bidder must possess or demonstrate the required breeder, importer and marketing authorizations.
- The complete bidding document shall be available without fee through the Punjab PPRA/Punjab e-Procurement System platform. Bids shall be submitted in the manner stated in the Punjab e-Procurement System notice and Bid Data Sheet.
- Technical proposals will be opened first. Financial proposals of only technically responsive bidders will be opened after publication of the technical evaluation report and completion of the applicable grievance period.

Submission and opening address/Punjab e-Procurement System: Punjab Seed Corporation Head office, 4 Lytton Road, Lahore

Procurement contact: Assistant Director Purchase 042-99212563

Section II - Instructions to Bidders (ITB)

1. Scope of Bid

The Purchaser named in the Bid Data Sheet invites bids for the goods and incidental services described in the Schedule of Requirements. The lot structure, quantities and delivery schedule are stated in Part II.

2. Source of Funds and Authority

The procurement is financed from PSC's approved funds/budget and bank credit. Initiation and award remain subject to competent-authority approval, procurement planning and availability of funds.

3. Ethical Conduct and Integrity

Bidders and suppliers shall observe the highest standards of integrity. Corrupt, fraudulent, collusive, coercive or obstructive conduct, conflict of interest, false documentation or undisclosed commissions may result in rejection, forfeiture, termination and blacklisting under applicable law.

4. Eligible Bidders

A bidder may be a local legal entity, foreign legal entity, breeder/manufacturer, authorized supplier, registered seed importer or permitted joint venture. The bidder shall not be insolvent, debarred or conflicted, and shall meet all qualification requirements in Section IV.

5. One Person - One Bid

A person shall submit only one bid in the same procurement, either individually or as a member of a joint venture. Participation in more than one bid shall be dealt with under Rule 36A, except that a manufacturer may issue authorizations where permitted by the BDS without itself submitting multiple bids.

6. Eligible Goods and Origin

Goods may originate in any eligible country not restricted by Government policy. All goods must be fresh, genuine, legally marketable seed of the offered approved hybrid and must satisfy Pakistan's seed, quarantine, biosafety, labelling and intellectual-property requirements.

7. Contents of Bidding Document

The bidding document consists of the Invitation, ITB, BDS, Evaluation and Qualification Criteria, Bidding Forms, Supply Requirements, GCC, SCC and Contract Forms, together with written addenda issued before the deadline.

8. Clarification and Pre-bid Meeting

Requests for clarification shall be submitted through Punjab e-Procurement System or the official channel in the BDS no later than the stated date. Responses and minutes affecting the bidding document shall be circulated to all bidders without identifying the source of the question.

9. Amendment

PSC may amend the bidding document by written addendum. A material change shall be published and, where necessary, the deadline extended in the same manner as the original advertisement.

10. Cost and Language

The bidder bears all costs of bid preparation. The bid, correspondence and supporting translations shall be in English. Supporting documents may be in another language only with an authenticated English translation; the English version governs for evaluation.

11. Bid Composition

The bid shall comprise separate Technical and Financial Proposals. No price information may appear in the Technical Proposal. The mandatory contents are listed in the BDS and Section V.

12. Bid Prices

Prices shall be quoted per lot and per kilogram/metric tonne, as instructed, including all goods and incidental services necessary for complete delivery. Prices shall remain fixed unless the SCC expressly provides an adjustment mechanism.

13. Taxes, Duties and Incoterms

Bidders shall include all applicable taxes and duties along with delivery at site in the Price Schedules. The importer-of-record and Incoterm selected in the BDS shall govern. Statutory deductions will be made by PSC.

14. Bid Currencies

Local costs shall be quoted in PKR.

15. Bid Validity

Bids shall remain valid for the period stated in the BDS. Any extension shall be processed under Rule 28 and shall not permit a change in bid substance or price.

16. Bid Security

Each offered lot shall be covered by the fixed bid-security in the form of Bank Guarantee amount stated in the BDS, in an acceptable form. Security shall remain valid beyond bid validity for the stated period.

17. Authorization and Signing

The bid shall be signed by a person legally authorized to bind the bidder. Documentary authority, board resolution or power of attorney shall be submitted. Foreign documents shall be apostilled, notarized or consular-attested where required by Pakistani law.

18. Submission

Bids shall be submitted electronically through Punjab e-Procurement System in the prescribed two-envelope workflow. Any original security or document that Punjab e-Procurement System requires in hard copy shall reach the address in the BDS by the deadline. Conflicting electronic and hard-copy submissions may be rejected.

19. Deadline, Late Bids and Withdrawal

Bids received after the deadline shall not be accepted. Modification, substitution or withdrawal is permitted only through the prescribed Punjab e-Procurement System procedure before the deadline.

20. Technical Bid Opening

Technical Proposals will be opened at the date and time stated in the BDS, not less than 30 minutes after closing. Financial Proposals shall remain unopened and confidential until the notified financial opening.

21. Confidentiality

Evaluation information shall remain confidential until publication of the relevant evaluation report. Improper attempts to influence evaluation may result in rejection.

22. Clarification of Bids

PSC may seek written clarification that does not change price or the substance of the bid. A bidder may not cure the absence of a mandatory bid security, regulatory approval or material eligibility document after the deadline.

23. Preliminary Examination

PSC will examine completeness, signing, security, eligibility, arithmetic and material deviations. A substantially responsive bid conforms without material reservation, omission or deviation.

24. Technical Evaluation

Technical proposals will be evaluated on a pass/fail basis against Section IV and Part II. Claims must be supported by official varietal descriptors, registration/approval records, Pakistan multi-location trial data and accredited/official certificates as applicable.

25. Regulatory Verification and Samples

PSC may verify documents directly with FSC&RD, the Seed Council/VEC, DPP, NBC, the breeder/right-holder, issuing laboratories and foreign authorities. Sampling and testing shall be conducted only under the uniform procedure stated in Part II and shall not permit substitution of the offered hybrid.

26. Financial Opening

After completion of technical evaluation and the applicable five-day technical grievance period, PSC will notify technically responsive bidders and open their Financial Proposals publicly/electronically. Financial Proposals of non-responsive bidders shall remain unopened and be dealt with under the Rules.

27. Financial Evaluation

Evaluation will be lot-wise on the total evaluated landed cost to the common destination, including price corrections and cost adjustments expressly stated in Section IV. No undisclosed criterion will be used.

28. Arithmetic Corrections

PSC will correct arithmetic errors under the method stated in the BDS. If the bidder does not accept a lawful correction, its bid may be rejected and security dealt with under the bidding document.

29. Domestic Preference

No domestic preference applies unless a current Government policy mandates it and the BDS states the exact preference and evaluation method.

30. Post-qualification

PSC may verify the bidder's financial, technical, legal, production, supply and regulatory capability before award. False, fabricated or materially incorrect information shall result in disqualification.

31. Award

Subject to the Rules, PSC will award each lot to the technically responsive and qualified bidder offering the lowest evaluated cost for that lot. PSC may award several lots to one bidder only if its aggregate capacity satisfies Section IV.

32. Quantity Variation

At award, PSC may increase or decrease a lot quantity by the percentage stated in the BDS without changing the unit rate or other material terms, subject to approved need, budget and law.

33. Notification and Contract

PSC will publish the evaluation report and observe the statutory standstill/grievance period before issuing the Letter of Acceptance. The successful bidder shall sign the Contract and furnish performance security within the stated time.

34. Performance Security

The successful bidder shall provide an unconditional performance security in the amount and form stated in the SCC, not exceeding the Rule 56 ceiling, valid through the contractual warranty/claim period.

35. Grievances

PSC's duly notified Grievance Redressal Committee will process complaints under Rules 67 and 67A. A technical-evaluation complaint must be lodged within five days of announcement; a final-evaluation complaint within ten days. The BDS identifies the filing address.

36. Negotiations

No negotiation with bidders is permitted except as expressly allowed by the Punjab Procurement Rules. A voluntary unconditional discount by the lowest evaluated bidder may be dealt with under applicable Rule 57.

37. Right to Reject

PSC may reject all bids before acceptance under Rule 35, record and communicate the decision as required, and may rebid after assessing the causes.

Section III - Bid Data Sheet (BDS)

ITB	BDS Item	Tender-specific provision																		
ITB 1	Purchaser	Punjab Seed Corporation, Lahore																		
ITB 2	Tender title/number	Procurement of Hybrid Seeds for Punjab Seed Corporation																		
ITB 3	Prequalification election	Post qualification process will be adopted																		
ITB 4	Joint venture	Permitted; maximum three members. For Local JV , All members jointly and severally liable. Lead member shall hold at least 40% participation and each other member at least 20%. For international JV : at least 51% participation /share by local JV partner is mandatory.																		
ITB 5	Breeder authorizations	Permitted. A bidder may offer only hybrids for which it holds a valid breeder authorization for Pakistan. One person-one bid requirements remain applicable.																		
ITB 6	Eligible countries	All countries except those restricted by a binding Government of Pakistan/Government of Punjab policy in force on the bid deadline.																		
ITB 7	Clarification deadline	16.09.2026																		
ITB 8	Pre-bid meeting	17.09.2026 (11:00AM) at Punjab Seed Corporation Head Office, 4-Lytton Road, Lahore																		
ITB 9	Language	English; authenticated English translations required for foreign-language evidence.																		
ITB 10	Importer of record	supplier's FSC&RD-registered Pakistan importer																		
ITB 11	Delivery term	common evaluated destination and Incoterm 2020;																		
ITB 12	Bid currencies	PKR																		
ITB 13	Bid validity	120 days from the technical bid-opening date.																		
ITB 14	Bid-security validity	At least 28 days beyond bid validity.																		
ITB 15	Bid security per lot	<table> <tr> <th>Lot</th><th>Description</th><th>Bid Security (@2%)</th></tr> <tr> <td>1</td><td>Hybrid Maize Seed</td><td>Rs. 500,000/-</td></tr> <tr> <td>2</td><td>Hybrid Paddy Seed - Coarse Grain</td><td>Rs. 400,000/-</td></tr> <tr> <td>3</td><td>Hybrid Sorghum-Sudan Grass (SSG) Seed</td><td>Rs. 800,000/-</td></tr> <tr> <td>4</td><td colspan="2">Hybrid Vegetable Seed</td></tr> <tr> <td>I</td><td>Okra (F1) Hybrid seed</td><td>Rs. 300,000/-</td></tr> </table>	Lot	Description	Bid Security (@2%)	1	Hybrid Maize Seed	Rs. 500,000/-	2	Hybrid Paddy Seed - Coarse Grain	Rs. 400,000/-	3	Hybrid Sorghum-Sudan Grass (SSG) Seed	Rs. 800,000/-	4	Hybrid Vegetable Seed		I	Okra (F1) Hybrid seed	Rs. 300,000/-

ITB 27	Letter of Acceptance/contract-signing period	Performance security within 05 business days of Letter of Acceptance; Contract within 05 business days.															

Section IV - Evaluation and Qualification Criteria

A. Mandatory Responsiveness - Pass/Fail

Ref.	Criterion	Requirement
A1	Timely submission on Punjab e-Procurement System in correct two-envelope format	Mandatory
A2	Signed Technical Bid Submission Form and valid authority/power of attorney	Mandatory
A3	Bid security for each offered lot, correct amount/form/validity	Mandatory; non-curable
A4	No price information in Technical Proposal	Mandatory
A5	No-blacklisting, conflict-of-interest and integrity declarations	Mandatory
A6	Breeder/manufacturer/rights-holder authorization valid for Pakistan	Mandatory per offered hybrid
A7	FSC&RD registration/enlistment	Mandatory per offered hybrid
A8	Registered seed company/importer evidence or accepted foreign-bidder import arrangement	Mandatory
A9	Complete lot-specific technical compliance schedule with official supporting evidence	Mandatory
A10	Acceptance of delivery, testing, warranty, IP and contract conditions	Mandatory
A11	NTN/ Active Tax payer	Mandatory

B. Bidder Qualification

Area	Minimum evidence/threshold
Legal standing	Certificate of incorporation/registration; constitutional documents; current good-standing evidence. Local firms: SECP/Registrar of Firms/proprietorship documents, NTN, applicable sales-tax registration and Active Taxpayer status. Foreign firms: equivalent home-country documents with authenticated English translation.
Seed-sector authorization	Valid seed-company/importer registration in Pakistan from FSC&RD, or for a direct foreign breeder/manufacturer, a binding arrangement naming a Pakistan-registered importer/representative where the BDS makes the supplier responsible for import.
Relevant experience	During the last five years, at least one successfully completed contract for same/similar hybrid seed equal to 50% of the offered lot quantity/value, or two contracts cumulatively equal to 70%. The bidder shall have a relationship with the producer / manufacturer / breeder for at least 3 years.
Financial capacity	Average annual turnover over the last three financial years not less than 1.5 times the bidder's total offered-lot value; working capital not less than 70% of the contract value. Annual income tax returns should be submitted as documentary

Area	Minimum evidence/threshold
	evidence.
Production/supply capacity	Evidence that breeder/manufacturer owns or controls fresh seed inventory/production capacity of at least 125% of the offered quantity and can deliver within schedule delivery timeline.
Litigation and performance	Disclosure of material litigation, terminated contracts and quality claims in the past five years. No unresolved default that materially impairs performance.

C. Lot-specific Technical Evaluation

Every stated characteristic must be supported by the offered hybrid's official varietal description, Pakistan registration/enlistment record, acceptable to PSC. Unsubstantiated catalogue claims will not establish compliance.

Lot	Mandatory performance decision
1 - Hybrid Maize	Complies with General Seed Requirements and every mandatory requirement in Technical Specification TS-1. Documented hybrid-specific variations are acceptable only where TS-1 expressly identifies the feature as indicative and the variation does not reduce minimum performance.
2 - Coarse Hybrid Paddy	Complies with General Seed Requirements and TS-2, including coarse-grain classification and stated yield/adaptability profile.
3 - Hybrid SSG	Complies with General Seed Requirements and TS-3, including early growth, biomass, multi-cut/regrowth, forage quality and Punjab heat/drought adaptation.
4-Hybrid Vegetable Seed	
(i) Okra (F1) Hybrid seed	Complies with General Seed Requirements and every mandatory requirement in Technical Specification TS 4
(ii) Bitter Gourd (F1)Hybrid Seed	Complies with General Seed Requirements and every mandatory requirement in Technical Specification TS-5
(iii) Bottle Gourd(F1) Hybrid Seed	Complies with General Seed Requirements and every mandatory requirement in Technical Specification TS-6
(iv) Brinjal (F1)Hybrid seed	Complies with General Seed Requirements and every mandatory requirement in Technical Specification TS-7

D. Financial Evaluation Formula

For each technically responsive lot, PSC will calculate the Evaluated Bid Price in PKR.

Section V - Bidding Forms

Form T-1: Technical Bid Submission Form

We, the undersigned bidder, having examined the complete Bidding Document and addenda, offer to supply the goods and incidental services for the lots identified below in full conformity with the Technical Proposal. We confirm that no price is included in this Technical Proposal; our bid remains valid for the period stated in the BDS; the accompanying bid security is valid; all information is true and verifiable; and, if awarded, we shall furnish performance security and execute the Contract. We accept PSC's right to verify regulatory, corporate, financial, intellectual-property and performance information with the issuing authorities.

Offered lots	Bidder's legal name	Country	Authorized signatory	Date

Form T-2: Bidder Information

Field	Bidder response
Legal name and former names	
Entity type and incorporation/registration number	
Country and registered address	
Ultimate beneficial owners	
Authorized representative and contact details	
NTN/STRN/ATL status for Pakistan entity,	
FSC&RD seed company/importer registration	
Named Pakistan importer/agent for foreign bidder	
Breeder/manufacturer represented	
Bank details for security/payment verification	
Litigation, termination, debarment and conflicts disclosure	

Form T-3: Joint Venture Information (if applicable)

Attach the signed joint-venture agreement or letter of intent, identify the lead member, state participation shares and powers, and confirm joint and several liability.

Member	Country	Role	Participation %	Authorized signatory
Lead				
Member 2				
Member 3				

Form T-4: Breeder/Manufacturer Authorization

We, [legal name of breeder/manufacturer/right-holder], established at [address], are the breeder/manufacturer/lawful right-holder of [hybrid name/code]. We authorize [bidder] to offer, import/supply, warrant and support this hybrid to Punjab Seed Corporation for the territory of Pakistan under Tender No. []. We confirm the bidder's authority to use all technical and regulatory records submitted, and we accept responsibility for authenticity, title, non-infringement and supply support. This authorization remains valid through completion of the Contract and warranty period.

Name/title	Signature	Date	Corporate seal/verification

Form T-5: Regulatory Compliance Schedule

Requirement	Document/reference	Issuing authority	Validity/status
Hybrid/variety registration or enlistment in Pakistan			
FSC&RD seed-company/importer registration			
Breeder/PBR/IP ownership and Pakistan authorization			
Phytosanitary certificate undertaking			
Non-GMO certificate/NBC status			
ISTA/OECD/official seed test certificate			
Truth-in-labelling and packaging compliance			

Form T-6: Qualification Data

Criterion	Bidder data	Supporting attachment
Contracts completed in past five years		
Average annual turnover - three audited years		
Working Capital		
Production/current inventory capacity per lot		
Quality laboratory and certification arrangements		

Form T-7: No-Blacklisting, Conflict and Integrity Declaration

The bidder declares that it and its controlling persons are not debarred from public procurement by Punjab Seed Corporation; have disclosed all actual or potential conflicts of interest, commissions and agents; have not submitted false or fabricated information; and will comply with applicable anti-corruption and integrity-pact requirements. The bidder authorizes verification and accepts action under the Punjab Procurement Rules for any material misstatement.

Bidder	Authorized signatory	CNIC/passport	Signature/date/seal

Form F-1: Financial Bid Submission Form

Having examined the Bidding Document, we offer to supply the offered lots for the prices stated in the Price Schedules. Our prices are firm, inclusive of all obligations assigned to us, and remain valid for the bid-validity period. We accept arithmetic correction under the BDS and confirm that no undisclosed commission or contingency is included.

Form F-2: Price Schedule

Lot	Hybrid/name	Qty MT	Unit Price/ kg (PKR)	Total PKR
1				
2				
3				
4				

PART II - SUPPLY REQUIREMENTS**Section VI - Schedule of Requirements**

Lot	Goods	Quantity	Delivery deadline	Destination
1	Hybrid Maize Seed	50 MT	Within one month after issuance of award letter	Sahiwal
2	Coarse Hybrid Paddy Seed	20 MT	Within one month after issuance of award letter	Rahim Yar Khan
3	Hybrid Sorghum-Sudan Grass Seed	100 MT	Within one month after issuance of award letter	Sahiwal
4	Hybrid Vegetables Seed			
i.	Okra (F1) Hybrid seed	3 MT	Within one month after issuance of award letter	Sahiwal
ii.	Bitter Gourd (F1) Hybrid Seed	0.2 MT	Within one month after issuance of award letter	Sahiwal
iii.	Bottle Gourd (F1) Hybrid Seed	0.5 MT	Within one month after issuance of	Sahiwal

Lot	Goods	Quantity	Delivery deadline	Destination
			award letter	
iv.	Brinjal (F1)Hybrid seed	0.04 MT	Within one month after issuance of award letter	Sahiwal

Section VII - General Technical Specifications

Parameter	Minimum requirement
Hybrid identity	Fresh commercial F1 hybrid seed where the crop/offer is described as hybrid; true to the exact enlisted name/number/code. No substitution, blend or undisclosed change in parentage.
Pakistan commercial approval	The exact offered hybrid must be registered/enlisted and approved/released for commercial cultivation and sale in Pakistan by the competent authority. Trial-only, expired, suspended or pending applications are not acceptable for commercial lots.
Imported maize/paddy trials	Evidence of VEC recommendation based on the legally required multi-location/season trials and competent approval, as applicable under the Seed (Business Regulation) Rules.
Seed quality	Germination, physical purity, genetic/variety purity, inert matter, moisture, weed/other crop seed and seed-health parameters shall not be below the current statutory Pakistan standard applicable to the crop/hybrid. Any higher value offered/certified by the bidder becomes contractually guaranteed.
Freshness	Produced in the most recent suitable production season and not carry-over, reconditioned or relabeled stock, unless PSC expressly approves documented carry-over after complete retesting. Production year and testing date must be disclosed.
Non-GMO	Non-GMO seed only. Each lot shall carry a certificate from the competent authority/authorized official body in the exporting country and comply with Pakistan biosafety requirements. No terminator technology.
Seed health/quarantine	Free from prohibited pests, pathogens, invasive weeds and regulated contaminants; accompanied by DPP import permit compliance and an original phytosanitary certificate for imported goods.
Testing certificates	Pre-shipment certificate of analysis from FSC&RD, ISTA-accredited laboratory, OECD-recognized system or official seed laboratory acceptable to PSC, covering each shipment lot. Certificate shall identify hybrid, lot, crop year, test date and all quality parameters.
Intellectual property	Breeder/right-holder authorization for import, supply and marketing in Pakistan; non-infringement warranty; disclosure of PBR/licence status. PSC repacking/co-branding requires written permission and regulatory compliance.
Treatment	Seed treatment, if any, must be legally approved, uniformly applied, declared and

Parameter	Minimum requirement
	safely labelled with active ingredient, dose, antidote/precautions and 'Not for food/feed' warning. Untreated seed shall be identified as such.
Packing for delivery	Delivery shall be in bulk packing size.
Labelling	Every delivery unit shall show crop, exact hybrid, class/status, lot number, country of origin, crop year, net weight, germination, purity, test date, treatment, storage instruction, breeder/supplier/importer and statutory labels/tags.
Shelf-life warranty	Each lot will have written shelf life when stored under supplier's written conditions,
Documentation	Commercial invoice, packing list, certificate of origin, bill of lading/airway bill, insurance, phytosanitary, non-GMO, import permit documents, seed test certificate, approval/enlistment, IP authorization and customs documents as applicable.

TS-1 - Lot 1: Hybrid Maize Seed (50 MT)

Feature	Required profile/evidence
Hybrid Type	Dual Purpose (Fodder & Grain)
Yield potential	More than 135 maunds/acre
Silage yield potential	More than 550 maunds/acre
Maturity days	105-110 days
No. Of Rows/Cob	18-20
Kernel characteristics	Shinning grain with orange-yellow color, good grain length and more than 300 grams thousand grain weight
Seed Emergence	Uniform seed emergence, seedlings emerge at nearly same time and with similar growth and height across the field
Plant height	More than 200 cm
Shelling percentage (Grain to pith Ratio)	More than 85%
Heat tolerance	Highly resilient against extreme temperature spikes (tolerating pollination-stage heat stress up to 40°C–46°C during late spring in the plains of Punjab)
Season adaptability	Suitable for cultivation in both spring and autumn seasons
Standability	Thick, strong stem with robust field lodging resistance
Resistance to Biotic Factors	Resistance to all diseases of Maize crop
Leaf attitude	Erect to semi-erect; suitable for high-density sowing
Cob Character	Good cob girth and length with good grain depth
Cob covering	Medium-firm and tight cob covering—easy enough for cob peeling while sufficiently tight to provide resistance against fungal infection and bird attack
Cob placement	Mid and uniform cob placement at same node across the field
Cobs per plant	Preferably one productive cob per plant.
Silage Character	Broad leaves with dark green color, good stem thickness and stay green character even after approaching physiological maturity.

Bidder's TS-1 Compliance Schedule

TS-2 - Lots 2: Hybrid Paddy Seed (20 MT)**TS-2 - Common Requirements**

S. No.	Character	Preferred Specification
1	Grain type	Short grain / coarse rice
2	Adaptability	Suitable for Punjab and Sindh
3	Days to maturity	95-100
4	Resistance to Disease	Resistance to all diseases of Rice
5	Heat tolerance & grain filling	Heat tolerant, Grain filling should be 85-90% under severe conditions ($42 \pm 2^{\circ}\text{C}$)
6	Husk percentage	Maximum 1–5%, preferably at the lower end, with good grain filling
7	Yield potential	More than 125 maunds/acre
8	Mother tiller panicle weight	12–15 grams
9	1000-grain weight	28–32 grams
10	Grain Length	6.5-6.8mm
11	Productive tillers	14–16 productive tillers per plant, with a low ratio of non-productive to productive tillers
12	Flag leaf & panicle attitude	Erect flag leaf and droopy panicle; preferred to reduce lodging risk associated with dew fall at maturity
13	Plant height	Preferred 120–130 cm
14	Grains per panicle	250–300 grains per panicle
15	Lodging resistance	Strong lodging resistance particularly at maturity, to facilitate efficient harvesting and reduce yield losses
16	Shattering resistance	Strong resistance to grain shattering at physiological and harvesting maturity to minimize pre-harvest and harvesting losses
17	Stay-green character	Good stay-green character to maintain healthy foliage and photosynthetic activity during grain filling
18	Days to 50% panicle emergence	50 -55 days
19	Grain quality	Head rice recovery should be greater than 50%
20	Bursting %	Should be less than 20%

Feature	Required profile/evidence
Grain type	coarse rice
Adaptability	Suitable for Punjab and Sindh

Feature	Required profile/evidence
Days to maturity	95-100
Resistance to Disease	Resistance to all diseases of Rice
Heat tolerance & grain filling	Heat tolerant, Grain filling should be 85-90% under severe conditions ($42 \pm 2^{\circ}\text{C}$)
Husk percentage	Maximum 1–5%, preferably at the lower end, with good grain filling
Yield potential	More than 125 maunds/acre
Mother tiller panicle weight	12–15 grams
1000-grain weight	28–32 grams
Grain Length	6.5-6.8mm
Productive tillers	14–16 productive tillers per plant, with a low ratio of non-productive to productive tillers
Flag leaf & panicle attitude	Erect flag leaf and droopy panicle; preferred to reduce lodging risk associated with dew fall at maturity
Plant height	Preferred 120–130 cm
Grains per panicle	250–300 grains per panicle
Lodging resistance	Strong lodging resistance particularly at maturity, to facilitate efficient harvesting and reduce yield losses
Shattering resistance	Strong resistance to grain shattering at physiological and harvesting maturity to minimize pre-harvest and harvesting losses
Stay-green character	Good stay-green character to maintain healthy foliage and photosynthetic activity during grain filling
Days to 50% panicle emergence	50 -55 days
Grain quality	Head rice recovery should be greater than 50%
Bursting %	Should be less than 20%

TS-2 - Category Requirements

Lot/category	Quantity	Yield potential	Grain/market requirement
Lot 2 - Coarse-grain hybrid	20 MT	Approximately 140-150 maunds/acre under recommended management, supported by official trial/approval data.	Coarse-grain classification; good adaptability, high yield and demonstrated market demand.

Bidder's TS-2 Compliance Schedule

Feature	Lot 2 response/evidence	Lot 3 response/evidence	Official page/reference
Crop establishment			
Plant strength			
Grain and market quality			
Stress and protection			
Agronomic response			
Non-GMO/export sensitivity			
Category/yield requirement			
Milling recovery			
Cooking/eating quality			
Disease/pest reaction			
Punjab-zone adaptability			

TS-3 - Lot 3: Hybrid Sorghum-Sudan Grass Seed (100 MT)

Feature	Required profile/evidence
Hybrid purity	Minimum 95% hybrid seed within the pure-seed component
Physical purity	Minimum 98.0% by weight
Germination	Minimum 80%;
Inert matter	Maximum 2.0%
Other crop plus weed seeds	Maximum 0.10%
Moisture	Maximum 12.0%
Shelf life	At least 12 months remaining from delivery; germination guarantee must cover the 2027 planting season
Origin and authorization	Country of production and manufacturer must be declared; bidder must be authorized for the exact hybrid
Multi-cut ability	Minimum 3 economic cuts in one summer season
First-cut readiness	Not more than 50 days after emergence under recommended management
Subsequent cutting	Maximum 25 days

Feature	Required profile/evidence
interval	
Total green-fodder yield	Mean ≥ 48 t/acre over three cuts and not less than 90% of the official check hybrid in the same trial
Regrowth	At least 85% surviving productive stools after each cutting
Infestation	Free from any kind of physical or inborn pest infestation

Bidder's TS-3 Compliance Schedule

Feature	Comply (Y/N)	Offered value/description	Evidence/page

TS-4 - Lot 4: Hybrid Vegetables Seed**OKRA (BHINDI) – PROCUREMENT SPECIFICATIONS**

Feature	Required profile/evidence
Days to 50% flowering	Maximum 42 days after sowing
First commercial picking	Maximum 50 days after sowing
Pod colour	Dark green, glossy and uniform
Pod shape	Straight, slender and pentagonal/five-ridged
Marketable pod length	10–12 cm
Pod surface	Tender, spineless or having only soft/minimal spines
Pod uniformity	Minimum 90% of sampled marketable pods within specified class
Deformed/off-type pods	Maximum 5%
Marketable yield	Minimum 4.8 tonnes/acre in Pakistan trials
Harvests	Minimum 15 commercial pickings
Virus reaction	Minimum documented intermediate resistance/field tolerance to YVMV and OLCV/YVNV
Adaptability	Suitable for spring and monsoon sowing under Punjab conditions

Bidder's TS-4 Compliance Schedule for OKRA (BHINDI)

Feature	Comply (Y/N)	Offered value/description	Evidence/page
Days to 50% flowering			
First commercial picking			
Pod colour			
Pod shape			
Marketable pod length			
Pod surface			
Pod uniformity			
Deformed/off-type pods

TS-5 - Lot 4: Hybrid Vegetables Seed**BITTER GOURD (KARELA) – PROCUREMENT SPECIFICATIONS**

Feature	Required profile/evidence
First female flowering	Maximum 40 days after sowing
First commercial picking	Maximum 55 days after sowing
Fruit length	7–10 cm
Average fruit weight	45–65 g
Fruit colour	Uniform dark green
Fruit surface	Prominent, uniformly distributed tubercles/prickles
Fruit shape	Uniform short spindle/cylindrical type
Marketable uniformity	Minimum 90%
Deformed/off-type fruits	Maximum 5%
Marketable yield	Minimum 8 tonnes/acre in Pakistan trials
Harvesting duration	Minimum 75 days
Disease reaction	Documented tolerance/IR to downy mildew, powdery mildew and bitter-gourd mosaic/virus complex
Heat setting	Minimum 70% fruit set compared with normal-season fruit set, where claimed
Spines	Spineless or very low-spined

Bidder's TS-5 Compliance Schedule (BITTER GOURD (KARELA))

Feature	Comply (Y/N)	Offered value/description	Evidence/page
Hybrid type			
High yield potential			
Early fruiting			
Vigorous plant growth			
Fruit color			
Fruit shape			
Fruit uniformity			

Feature	Comply (Y/N)	Offered value/description	Evidence/page
Good fruit quality			
Warm-season adaptability			
Commercial suitability			

TS-6 - Lot 4: Hybrid Vegetables Seed**BOTTLE GOURD (ROUND) – PROCUREMENT SPECIFICATIONS**

Feature	Required profile/evidence
Hybrid type	Genuine F1 hybrid
Plant habit	Vigorous vine with prolific and continuous bearing
Days to first female flowering	Maximum 40 days after sowing
First commercial picking	Maximum 55 days after sowing
Fruit shape	Uniform round/globular; no elongated shape or pronounced bottle neck
Shape ratio	Fruit polar length ÷ equatorial diameter between 0.85 and 1.15
Average marketable fruit weight	0.60–1.20 kg
Flesh	White, tender and free from coarse fibres at marketable stage
Seeds at marketable stage	Soft and immature
Marketable fruit uniformity	Minimum 90% within prescribed shape, colour and weight range
Marketable fruits per vine	Minimum 8 fruits under recommended crop management
Marketable yield	Minimum 16 tonnes/acre

Feature	Required profile/evidence
Harvesting duration	Minimum 60 days after first picking
Infestation	Should be free from all kind of disease and inborn pathogens.
Cultivation suitability	Suitable for both open-field and tunnel cultivation in Punjab

Bidder's TS-6 Compliance Schedule (BOTTLE GOURD)

TS-7 - Lot 4: Hybrid Vegetables Seed**BRINJAL (BAINGAN) – PROCUREMENT SPECIFICATIONS**

Feature	Required profile/evidence
First commercial picking	Maximum 55 days after transplanting
Fruit shape	Round to oval
Average fruit weight	150–250 g
Equatorial diameter	8–12 cm
Skin colour	Glossy dark purple
Spines	Spineless or very low-spined
Marketable uniformity	Minimum 90%
Marketable yield	Minimum 16 tonnes/acre
Disease reaction	Minimum intermediate resistance to bacterial wilt
First commercial picking	Maximum 65 days after transplanting
Fruit shape	Round to oval
Average fruit weight	150–250 g
Equatorial diameter	8–12 cm

Section VIII - Inspections, Tests and Acceptance

1. Laboratory testing: Tests may include germination, physical purity, moisture, seed health, weed/other crop seed, genetic/variety purity, grow-out test and DNA/trait verification where available and justified.
2. Conditional custody: Delivery to PSC premises does not constitute acceptance. Stock shall be segregated and shall not be packed/sold until documentary and laboratory acceptance is issued.
3. Failure: A lot failing any mandatory standard, identity, approval, quarantine or IP requirement may be rejected. The supplier shall remove and replace it within the time stated by PSC, at its own cost, without prejudicing liquidated damages or risk-and-cost remedies.
4. No agronomic overstatement: Field yield varies with environment and management; however, supplied seed must be authentic and conform to its official descriptor, documented performance evidence and guaranteed quality. False yield or trait claims constitute a material breach.

Acceptance Documents

- Goods Receipt/Quarantine Receipt (custody only);
- FSC&RD/authorized laboratory test report;
- Regulatory and shipping document verification checklist;
- Lot Acceptance Certificate signed by PSC's authorized committee; and
- Final Delivery and Acceptance Certificate after correction of shortages/rejections.

PART III - CONDITIONS OF CONTRACT

Section IX - General Conditions of Contract (GCC)

1. Definitions and Interpretation

Contract, Purchaser, Supplier, Goods, Incidental Services, Lot, Delivery, Acceptance, Hybrid, Applicable Law and other capitalized terms have the meanings given in the Contract/SCC. Headings do not limit interpretation.

2. Contract Documents and Priority

The signed Agreement, Letter of Acceptance, SCC, GCC, Supply Requirements, accepted Bid, addenda and securities constitute the Contract in the stated order of precedence.

3. Governing Law

The Contract is governed by the laws of the Islamic Republic of Pakistan and applicable laws/rules of Punjab.

4. Standards

Goods and services shall conform to Part II, applicable Pakistan seed standards and, where stated, recognized ISTA/OECD/official standards. The stricter lawful contractual requirement prevails.

5. Use and Confidentiality

Each party shall protect lawful confidential information. PSC may disclose procurement records as required by PPRA/RTI/audit/law. Parent-line trade secrets not needed for regulatory verification shall not be demanded or disclosed.

6. Intellectual Property and Title

Supplier warrants good title and authority to supply/market the hybrid in Pakistan and indemnifies PSC against infringement or unauthorized use claims. Any PSC repacking, co-branding or use of breeder material is limited to the written licence.

7. Performance Security

Supplier shall maintain the performance security stated in the SCC. PSC may call it for default, non-replacement, quality failure, delay, indemnity or other secured obligation after applicable notice.

8. Inspections and Tests

PSC may inspect and test under Section VIII. Costs of routine acceptance testing are allocated in the SCC; costs of retesting after failure and supplier-caused investigation are borne by Supplier.

9. Packing, Marking and Documents

Supplier shall pack and mark goods to prevent moisture, contamination, substitution and transit loss, and provide all contract/shipping/regulatory documents. Packing is non-returnable unless stated.

10. Insurance and Transportation

Supplier shall insure and transport goods to the contractual point under the selected Incoterm, including risks and costs assigned to it. Insurance shall be in freely convertible currency and cover at least 110% of shipment value where applicable.

11. Delivery and Acceptance

Time is of the essence. Delivery is complete only when goods, documents, shortages and defects have been accepted in writing. Partial or early delivery requires PSC's written approval.

12. Incidental Services

Supplier shall provide regulatory coordination, technical literature, training, field support, complaint investigation and other services listed in the SCC, included in Contract Price unless separately priced.

13. Warranty and Recall

Supplier warrants identity, freshness, purity, germination, seed health, approval, non-GMO status, title and conformity through the warranty period. PSC may require replacement, refund, recall and direct reasonable costs for established breach.

14. Payment

Payment will be made under the SCC after required documents and acceptance milestones. PSC may withhold disputed or rejected amounts and make statutory deductions.

15. Prices

Contract unit prices are fixed, except an adjustment expressly stated in the SCC. No exchange-rate or freight escalation is payable merely because costs changed after bid opening.

16. Change Orders

A written change within the general scope may adjust quantity, delivery, packing or destination in accordance with law. No oral change binds PSC.

17. Extensions

Supplier shall promptly notify foreseeable delay with evidence. An extension is valid only by written competent-authority approval and does not automatically waive liquidated damages.

18. Liquidated Damages

For unexcused delay, PSC may deduct the daily percentage stated in the SCC up to the maximum. Because the goods are seasonal, PSC may terminate and purchase replacement at risk and cost when delay defeats the intended season.

19. Termination for Default

PSC may terminate for failure to deliver, replace, meet quality/regulatory requirements, maintain authorization/security, or perform another material obligation after notice, without limiting other remedies.

20. Termination for Insolvency or Convenience

PSC may terminate for insolvency. Subject to law and competent approval, PSC may terminate for convenience and pay only for accepted goods and reasonable unavoidable committed costs expressly proven.

21. Force Majeure

A party is excused only for an unforeseeable event beyond reasonable control that directly prevents performance, provided prompt notice, mitigation and evidence are supplied. Price changes, lack of funds, ordinary shipping delay or failure of a subcontractor without qualifying cause are not force majeure.

22. Assignment and Subcontracting

Supplier shall not assign or subcontract material obligations without PSC's prior written approval. Approval does not relieve Supplier of responsibility.

23. Taxes and Duties

Supplier is responsible for taxes/duties assigned under the SCC/Incoterm. PSC will deduct withholding taxes under law and provide evidence where applicable.

24. Limitation and Indemnity

Any agreed limitation does not apply to fraud, wilful misconduct, IP infringement, unlawful seed, bodily injury, confidentiality breach or liabilities that law does not permit to be limited.

25. Dispute Resolution

Parties shall first attempt good-faith resolution through designated officers, then mediation if agreed, and finally arbitration under the SCC and Rule 68.

26. Notices

Notices shall be in writing to the addresses in the SCC; Punjab e-Procurement System/email may be used where legally recognized, with delivery evidence.

27. Audit and Records

Supplier shall retain procurement, production, testing, shipment, tax, agent/commission and traceability records for the period required by law and permit audit by PSC, Government and authorized audit bodies.

28. Blacklisting

Material default, corrupt practice, false documentation or persistent non-performance may be referred for blacklisting after due process under Rules 20-21 and the Schedule.

Section X - Special Conditions of Contract (SCC)

GCC	SCC Item	Tender-specific provision
GCC 1	Purchaser	Punjab Seed Corporation
GCC 2	Priority	Agreement; Letter of Acceptance; SCC; GCC; Supply Requirements; accepted Financial Bid; accepted Technical Bid; addenda; other listed documents.
GCC 3	Law/jurisdiction	Pakistan/Punjab law; courts at Lahore for matters not referred to arbitration.
GCC 7	Performance security	10% of Contract Price in prescribed unconditional bank-guarantee form, valid until 90 days after expiry of warranty/last sale season.
GCC 8	Inspection/testing cost	Routine arrival/acceptance tests: failed-lot retesting, removal, replacement and complaint investigation caused by non-compliance: Supplier.
GCC 9	Packing	Bulk packing
GCC 10	Incoterm/destination	Incoterm 2020 and named PSC Warehouse
GCC 11	Final delivery	Within one month after issuance of award letter
GCC 13	Replacement period	Within 15 calendar days of rejection/notice, or earlier where needed to protect the sowing season.
GCC 14	Local supplier payment	100% of accepted quantity within 30 days after Final Acceptance Certificate, correct invoice and statutory deductions; no advance.
GCC 15	Price adjustment	None. Contract prices fixed.
GCC 18	Liquidated damages	0.10% of price of delayed goods per calendar day, maximum 10% of Contract Price, without prejudice to seasonal risk-and-cost procurement.
GCC 25	Dispute escalation	Supplier representative -> PSC Director concerned -> Managing Director PSC; each level allowed seven business days unless urgency requires less.
GCC 25	Arbitration	Arbitration Act 1940; seat Lahore; language English; sole arbitrator mutually agreed, failing which appointed under applicable law.
GCC 26	PSC notice address	4-Lytton Road, Lahore
GCC 26	Supplier notice address	

Section XI - Contract Forms

Form C-1: Letter of Acceptance

To: [Successful Bidder]. Punjab Seed Corporation accepts your Bid dated [] for Lot(s) [] at the Contract Price of [currency/amount], subject to the attached Contract. Within 10 business days, furnish the performance security and execute the Agreement. This Letter does not authorize shipment before satisfaction of regulatory/documentary conditions stated by PSC.

Form C-2: Contract Agreement

This Agreement is made on [date] between Punjab Seed Corporation (Purchaser) and [Supplier]. The Supplier shall supply and the Purchaser shall pay for the Goods and Incidental Services in accordance with the Contract Documents. The Contract Price is []. The documents listed in GCC 2 form an integral part. The parties, through duly authorized representatives, sign below.

For Punjab Seed Corporation	For Supplier
Name/designation: _____	Name/designation: _____
Signature/date: _____	Signature/date/seal: _____
Witness: _____	Witness: _____

Form C-3: Bid Security - Bank Guarantee

At the request of [Bidder], we [Bank] irrevocably undertake to pay Punjab Seed Corporation any sum up to [amount] upon first written demand stating that the Bidder has withdrawn/modified its bid during validity, failed to accept lawful arithmetic correction, failed to furnish performance security or failed to sign the Contract after acceptance. This guarantee expires on [date], and any demand must reach us by that date. This guarantee is governed by Pakistan law and is payable at [Pakistan branch].

Form C-4: Performance Security - Bank Guarantee

At the request of [Supplier], we [Bank] irrevocably and unconditionally undertake to pay Punjab Seed Corporation any sum of 10% amount upon first written demand stating that the Supplier is in breach of the Contract, without PSC being required to prove the breach to the Bank. This guarantee remains valid until [date] and is payable at [Pakistan branch]. It may not be amended or cancelled without PSC's written consent.

Form C-5: Integrity Pact (where applicable)

The Supplier warrants that it has not offered or paid and will not offer or pay any commission, gratification, facilitation payment or other benefit to influence the procurement or Contract. All agents, commissions and beneficial interests are disclosed in the attached schedule. Breach may result in rejection, termination, recovery, forfeiture and blacklisting under law.

Form C-6: Beneficial Ownership Disclosure

Natural person/owner	Nationality	Ownership/control %	Basis of control	ID/reference

PART IV - REGULATORY AND INTERNAL SCHEDULES**Schedule A - Local and International Supplier Requirements**

Requirement	bidder
Punjab e-Procurement System	Valid supplier enrollment and electronic bid submission.
Legal status	SECP incorporation, partnership registration or proprietorship evidence; authority to sign.
Tax	NTN, applicable STRN and Active Taxpayer status; statutory deductions.
Seed business	Valid FSC&RD/competent seed-company and importer registration for the role performed.
Hybrid approval	Exact hybrid approved/registered/enlisted for commercial sale in Pakistan.
Import/quarantine	For imported stock: DPP permit, phytosanitary, customs GD, certificate of origin and non-GMO documents.
IP authorization	Breeder/right-holder authorization covering Pakistan and proposed PSC marketing/repacking.
Bank security	Security from scheduled bank in Pakistan in prescribed form.
Experience/finance	Audited accounts/tax returns, bank credit and similar hybrid-seed contracts.
Local support	Named technical and complaint-response staff in Pakistan.
Documents at award	Performance security, contract, import plan if applicable, final labels/packing and delivery schedule.
